# INTRODUCTION

ONE DOLLAR is play-to-earn gaming and NFT ecosystem utilizing the \$ONEDOLLAR token built on the Binance Smart Chain. "ONE DOLLAR ONE MISSION ONE COMMUNITY" ... is our ethos; we want to simplify play-to-earn gaming to attract the 99% of the world's population that isn't currently in the crypto space. We've rebuilt crypto gaming from the ground up with a familiar arcade-style approach in mind. The ever-expanding ecosystem consists of games, NFTs, merchandise, staking, and much more. 2022 is set to be our biggest year yet as we develop more games and move into the metaverse.

ONE DOLLAR is a play-to-earn game built on the Binance Smart Chain. The aim of the game is simple... FLY as fast as you can through all of the obstacles whilst collecting ONE DOLLAR COINS along the way. Successful players who complete all levels will be rewarded with the collected coins. Led by award-winning and Grammy-nominated director the ONE DOLLAR team consists of the world's most talented blockchain, gaming, and marketing specialists.

## HOLD & WIN

ONE DOLLAR is a reflect token. That means you will earn some ONE DOLLAR on each transaction just by holding yours. In fact, there is a 2% tax on each transaction that is redistributed between ALL ONE DOLLAR holders instantly and gasless. Holders earn passive rewards through static reflection as they watch their balance of \$ONED grow continuously.

## PLAY TO EARN (P2E)

Blockchain gaming, along with the play-to-earn movement, is signaling a paradigm shift in the gaming space. Players have always been the central driving force behind any successful game and now they can be rewarded with crypto for the contributions that they make to their gaming community. We aim to establish ONE DOLLAR as a leader in this revolutionary gaming space.

V.2 PLAY TO EARN GAME  
Coming Soon

A growing number of blockchain-based games allow players to compete for in-game assets that can later be transferred into real-world value. This has allowed for the emergence of virtual economies where users participate in gaming activities to generate real-world income. This trend has received significant traction in Southeast Asia particularly. Many have turned to play-to-earn (P2E) gaming as a viable income source after COVID-19 impacted their earning capacity. The play-to-earn movement has gained such traction that some governments are planning to create taxation schemes for play-to-earn game developers and players.

## FREE TO PLAY (F2P)

Free to play (F2P) refers to a business model for online games in which the game designers do not charge the user or player to join the game. Instead, they hope to bring in revenue from advertisements or in-game sales, such as payment for upgrades, special abilities, special items, and expansion packs.

ONE DOLLAR game will be free to play! ONE DOLLAR is an animated character based game developed to offer a fun and simple experience for players seeking to earn income while enjoying playing video games. Designed in a unique fashion to allow players their choice of varying difficulty from start to finish, balancing their own risk to reward and offering a diverse gaming experience which never gets boring.

# ECOSYSTEM

## Community-Powered

ONE DOLLAR is fully decentralized and owned by its vibrant community. We welcome and embrace diverse perspectives to build ONE DOLLAR into the best community in crypto.

## Instant Rewards

For every transaction in the ONE DOLLAR network, a reward in form of Binance is distributed to existing holders. That means you earn money just by holding your ONE DOLLAR tokens in your wallet. Watch your network grow by every transaction performed within our network.

## Locked LP

The liquidity tokens are locked. Additionally 1% of all transaction fees are added to liquidity.

## VALUES

### Transparency

ONE DOLLAR is decentralized and supported by its community of enthusiasts. We encourage open communication and believe trust, transparency and a strong community are the 3 pillars to create longevity.

### Community

ONE DOLLAR is one of the fastest-growing and most loved communities in the crypto space. We believe that only together we are strong. Community is everything and ONE DOLLAR strives to include everyone from around the globe.

### Trust

In the crypto market trust is paramount. That means full transparency not only in the community and development but also in security efforts are needed. ONE DOLLAR has been audited by a third party to ensure everyone's safety.

### Longevity

ONE DOLLAR is in for the long haul. The decentralized community is fostering and adopting long-term development of the ecosystem and foundation in efforts to drive real use cases and greater rewards beyond any temporary trends.

### Visionary

With our unique vision on how to connect Metaverse gaming and crypto we will create a whole new experience and make it easily accessible for the mainstream. Over the period of the next year we are convinced that we will be within the top 20 gaming meme coins and widely adopted.

## NFD- NONE FUNGIBLE DOLLAR

---

With a unique NFD collection, we will add another great feature to the ecosystem. A wide range of extraordinary characters and items will be available.

As you might already think, you will also be able to play the characters you own within the Metaverse and wear the items.

Stand of the crowd by exploring the Metaverse with a rare character or by wearing rare items. Everything will be possible in ONE DOLLAR world, just have a look.

## ONEDOLLAR NFD MARKETPLACE

---

With our unique Marketplace, we will allow you to trade NFDs of ONEDOLLAR NFD collection and third-party NFT collections with the lowest fees. The user-friendly interface will make the Marketplace easily accessible for everyone and also provide a smooth bridge to the Metaverse World.
